

1) closed, 2) open

Basic features

Additional features	Weld immune
Principle of operation	Clamp holder
Scope of delivery	Clamp holder (1x) Nut DIN 1763-M36x1.5 (2x)
Use	For M30 sensors

Environmental conditions

Ambient temperature	-25...70 °C
----------------------------	-------------

Remarks

For proximity switches with mounting length 43 mm and longer.
 The clamp holder was designed to retain size M30 proximity switches.
 The plastic stop cap allows the installation of sensors with a higher switching distance without having to alter the switching distance.

Material

Material	Brass
Surface protection	White bronze

Mechanical data

Dimension	Ø 41 x 46 mm
Mounting	Clamps
Tightening torque	50 Nm
